### CREDENTIALS

LEIBER GmbH certifies that Mr. Tomasz Bobras, the owner of The Architectural Designing Office PURE A from Gdansk in Poland, was leading the designing teams from 2003 to 2005. The team executed construction and designing works for the yeast production facility InterYeast Ltd. in Krosniewice, Poland, belonging to LEIBER GmbH group. Among the tasks assigned were: making measuring drawings, preparing multi-disciplinary detailed projects, preparing bills of quantity (estimates), specifying reception and execution conditions for construction works and also supervising construction sites.

Mr. Tomasz Bobras was responsible for the following investments:

- redecoration of the yeast powdering building,
- reconstruction of plant parts for yeast drying drums and centrifuge technology,
- transformation of ammonia water refrigerator room into an oil boiler house (4,5 MWt) with the oil storehouse (40 t),
- transformation of the warehouse into offices,
- revitalization of the main building together with thermo modernization and color arrangement at the facade.

At present InterYeast Ltd. is still cooperating with APP PURE A designing office. Currently Mr. Bobras's designing office is preparing a three-dimensional virtual model for the whole plant and also is realizing the new project - the extension of the plant's technological line by one more yeast drying drum.

Tomasz Bobras, the architect and his architectural designing office APP PURE A realizes the tasks assigned to him with full engagement, competence and technical experience. LEIBER GmbH is very content with the cooperation with APP PURE A and with full responsibility can recommend this designing office as a very efficient and reliable partner in realizing construction investments.
